EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Non-elected claims 8-10 are canceled.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel Girdwood (Registration # 52947) on December 09, 2004.

DETAILED ACTION

2. This office action is in response to applicant's election filed on 9/28/2004.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

4. Claims 1-7 are allowable over the art of record.
5. The following is an examiner's statement of reasons for allowance: There is no suggestion or teaching in the art of record to provide a NAND-type magnetoresistive RAM comprising several NAND-type transistors connected in series, the gates of the transistors being connected one-by-one to a plurality of read wordlines; and a plurality of MTJ cells each of which

Art Unit: 2824

being connected to a connection node of two adjacent transistors, and each of which being controlled by a corresponding write wordline, in combination with the remaining claimed limitation. Therefore, independent claim 1 is deemed allowable along with its dependent claims 2-7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Iwata (U.S. 6,804,144), Iwata et al. (U.S. 6,742,653), Hidaka (U.S. 6,683,807), Ito (U.S. 6,693,822) disclose a magnetic memory device which is similar to that of applicant, but do not teach each of a plurality of MTJ cells being connect to a connection node of two adjacent transistors, and being controlled by a corresponding write wordline.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Toan Le whose telephone number is (571) 272-1872. The examiner can normally be reached on M-F (8.00AM - 5.30PM).
